Kaneisha Whipple

Web Developer

Hardworking Web Developer with a knack for problem solving and front end development. Experienced in multiple NetSuite integrations and customizations. I am a great team player that is also experienced in client communication.

Experience

2014–
Present

eMerge Technologies | Lead Developer

Create customized scripts for companies that help with specific wants inside of NetSuite using NetSuite's SuiteScript (1.0 & 2.0) API. Customizations for companies using SiteBuilder and SuiteCommerce Advanced. Communicate with clients through tools such as Google Docs and live demos/on-site with clients. Integrations using the Jitterbit platform.

Celiac Tracker | Front End Developer

Created for people with Celiac Disease this application was written using HTML, CSS, JavaScript, AJAX, and PHP. MYSQL was the chosen database and all data used came from the Nutritionix API. You can visit Celiac Tracker at www.celiactracker.com

Cheer Nation | Front End Developer

Cheer Nation is an eLearning site created for a school project. The site was made using HTML, CSS, and JavaScript. The video player was created using JavaScript and ActionScript callbacks. Firebase was also used for third party login. The code for this project can be found on my Github under the KWhippleSMS repository in the Cheer Nation folder.
